Internal Battery

Stylish multifunctional table with numerous multimedia functions.

The **design multifunctional table Mesu** with fabric in **colored linen optics** and the **removable and washable table flap** does not only convince by its glossy exterior. Its interior offers **full TWS* stereo sound from 2 x 12 watt speakers**. The music can be transferred via **Bluetooth®, USB or 3.5 mm line-In**. One of the **two USB interfaces** can also be used to charge external devices. As an additional highlight the Mesu offers a **wireless charging function**. Devices that support this function are charged directly by placing them on the tabletop.

Also part of the equipment of the multifunctional table is a **handsfree function**. **Music, volume and calls** can be controlled either via the connected device or through the **elegantly integrated keys** on the front.

Mesu provides an **integrated battery** which enables a use without having access to a power supply. The device can also be used in power supply system over the DC in access while the batteries are being charged.

Mesu is available in 3 attractive colours.

Art.Nr: 255205

Art.Nr: 255212

*True Wireless Stereo is connected to the main speaker via a smartphone, laptop or other device. The main speaker is then connected to the slave speaker via the Bluetooth connection.

This allows the device to deliver stereo sound of the highest quality.
